MATTRESS FAQs!

DOES A MATTRESS AFFECT HOW ONE SLEEPS?

Yes. An average human being ideally spends 1/3rd of his life (8 hours per day) asleep, and the mattress one uses has the potential either to encourage sleep or rob you of sleep. Whether your mattress is a sleep-friend or a sleep-foe can determine how refreshed you feel in the morning. If you're tossing and turning at night or if you wake up feeling stiff or sore in the morning, it could be a sign that your current mattress is not ideal for you.

WHAT ARE THE STANDARD SIZES AVAILABLE?

King Size: 84×72, 78×72, 75×72, 72×72
Queen Size: 78×60, 75×60 & 72×60
Twin sizes : 78×48, 75×48 & 72×48
Single sizes: 78×36, 75×36 & 72×36

There is a tolerance of ± 12mm in length and width, on standard sizes based on the amount of padding and type of construction.

HOW TO CHOOSE THE RIGHT MATTRESS?

The right mattress provides the right combination of support and comfort. Optimal support is essential for a

healthy body. A good mattress will gently support your body at all points and keep your spine in the same shape as say a person with good standing posture. When trying on mattresses, pay special attention to your shoulders, hips and lower back as these are the heaviest parts of your body.

IS THERE ONE RIGHT MATTRESS?

When it comes to mattresses, there is no one-size-fits-all. After all, we're all built differently and have different comfort and support preferences, so why would the same mattress be "best" for all of us? To determine the mattress that's best for you, we recommend using the process of elimination to weed out the ones you don't like.

WHAT IS THE BEST WAY TO TRY A MATTRESS?

The best way to try a mattress is to take the "SLEEP TEST":

- Select a mattress
- Lie down in your sleep position
- Evaluate the level of comfort and support
- Educate yourself about each selection
- Partners should try each mattress together

WHAT ARE THE IMPORTANT ACCESSORIES ONE MUST PURCHASE WITH THEIR MATTRESS?

a) Don't forget to purchase a waterproof mattress protector. Try Matt-Shield, from Cenutary. It guards your mattress against dirt, spills, and normal wear and tear, and, it is extremely lightweight and provides luxurious comfort.

b) Don't forget to invest in a good pillow. Having the right pillow is not only comforting, it plays an important role in supporting the head, neck, shoulders, hips, and spine.

SANIA REVEALS THE POWER OF BETTER SLEEP

What role has hardwork played in your success?

Indians are very hard working and they deserve proper sleep in order to keep going day after day. WHEN YOU SLEEP BETTER - EVERYTHING IS BETTER. As a player I can perform better when I've had a good night's rest.

How do you tap into the power of better sleep? What's the value of sleep in accomplishing your daily goals?

Studies show that sleep is a very critical factor in success. Sleep is no longer seen as passive - it is ACTIVE. We need to pay more attention to HOW we sleep. To get the best out of ourselves daily. The power of better sleep is the power to change your life for the better. It is the power to do more, achieve more, and be more.

Sania, you are a champion who has made the country proud. What do you think it means to "sleep like a champion"? What's the role of sleep in the life of a champion such as yourself?

I think sleep is extremely important in the journey to achievement. My body is well-rested and conditioned for tomorrow's game only when I sleep well. To sleep like a champion is to get the most out of your sleep time. It is about using sleep to get recharged, re-energised and ready to take on the challenges and opportunities of a new day.

Of course hard work will drain you out. But when you sleep like a champion - you're always back with a spring in your step and a fresh energy to take on the world. I sleep like a champion. No doubt about it!

For many years, Centuary mattress has been fondly called INDIA Ka Sleep Specialist. Now What Makes Centuary - Sania Ka Sleep Specialist?

I think it's great that Centuary has been supporting the dreams of our great country. Centuary has been constantly innovating and bringing out collections that cater to all kinds of needs.

The new collections from Centuary are so intelligently constructed, so detailed in their execution, so stylish and so luxurious - they are just perfect for me. Like many achievers in the world, I'm a firm believer in the power of better sleep, and I can clearly see how these Centuary mattresses help me tap into that power.

It's a wonderful feeling knowing that India ka sleep specialist is now SANIA KA SLEEP SPECIALIST.

I hope Centuary is YOUR sleep specialist too!
