ULTI-MATT TECHNOLOGY: FOCUSED ON THE FUTURE OF SLEEP.

THE ULTI-MATT TECHNOLOGY SYMBOL SIGNIFIES:

Ulti-Matt Smart	Smart design, intelligent construction, and layering
Ulti-Matt Bounce	Richer surface feel to add bounce to your life
Ulti-Matt Ortho	Unmatched Back & Spine support, for perfect posture and spine alignment
Ulti-Matt Cool	Better cooling and superior temperature management through gel bead infusion and other techniques
Ulti-Matt Air-flow	Superior air-flow through enhanced breathability of the mattress for better hygiene and durability

It's time to upgrade to Centuary's Ulti-Matt technology. Because better technology, means better sleep, and a better life!

Advanced Materials. Multi-layered Support.

ORTHO FOAM

This is a proprietary foam which is quite hard and gives higher support to the spine and helps maintain correct posture while sleeping.

MEMORY FOAM

Special type of foam that moulds itself as per the body contours, thereby eliminating pressure points.

PU FOAM

Commonly used cushioning material, this forms an integral part of any mattress. Century uses only 100% pure and high grade foams in its mattresses.

HR FOAM

High Resilience (HR) Foam provides greater bounce and comfort in comparison to conventional foams.

BONNELL SPRING

These are more affordable interconnected springs joined together into a single unit-using spiral wire.

LATEX FOAM

These are made from 100% pure latex, which is a healthy & durable material and also allows for greater breathability and air flow through the mattress.

QUILTED FABRIC COVER

Every Century mattress is finished with an extra layer of foam padding that is quilted together with the outer cover.

REBONDED FOAM

This is an amalgamation of fine foam chips bound together to form a support material. Ideally used in combination with Rubberised Coir or PU Foam.

POCKETED SPRING

Individual springs encased in fabric pockets, every spring acts independently to support the body.

RUBBERISED COIR

100% natural and breathable, ideal for hot and humid countries like India. Centuary is India's largest exporter of Rubberised Coir.

GREENGEL FOAM

This latest innovation incorporates beads of proprietary Green Gel, which help maintain cooler temperature by preventing heating of the foam or mattress.

PROFILED FOAM

These foams are differently shaped in order to allow superior air flow through the mattress.

CONTOUR FOAM

Made of open-cell foam, this firm and comprehensive foam with slow recovery conforms to body contours for a custom fit.

MICRO SPRINGS

High quality Micro springs improve points of contact with the body offering unparalleled support and comfort.

HERE'S
TO THE
#COMFORT
CRAZY!

People sleep.
Sometimes because they need to.
Sometimes because they want to.

People sleep.
On flights. On long drives. At the office.
On the couch.

And what's really interesting is how far we're
willing to go for that extra comfort.
We check-in early or even pay for an aisle seat.
We want recliners in movie theaters.
We want our food to come to us.

Clearly, we are a #comfortcrazy generation!
And we totally get it. In fact, we encourage it!
And we enable it.

Bed or no bed. Right time or not.
We think there's nothing that quite gets your
motors running again like a good nap.

That's why we make a whole range of accessories
that give people that extra comfort, no matter
when and where they choose to doze off!

From bed accessories to duvets and pillows,
headboards and bed bases to mattress protectors,
neck pillows and wedge pillows to bolsters - we
have everything to make an odd space super
comfortable.

And a comfortable space – Super Luxurious!
